

AG 5800 END OF LIFE PROMOTION

Receive the AG 5900 Gateway at a Special Price NSP #760

Today's guest networks are facing unprecedented demand. Multiple devices per user pushing massive amounts of bandwidth necessitate the need to deploy bullet-proof, scalable solutions to ensure your guests get the internet experience they demand.

With the AG 5800 reaching end of life, we are pleased to offer a promotion for our AG 5900 gateway. Recognized as the most reliable gateway on the market today, the AG 5900 was designed with scalability in mind to accommodate medium to large sized venues – from hotels to airports to stadiums and convention centers. The AG 5900 features the flexibility to support from 500 up to 8,000 simultaneous devices, and up to tens of thousands when using our clustering feature. With a throughput of 3.0 gigabits per second, the AG 5900 can meet growing bandwidth demands while keeping internet traffic flowing.

Promotion offer expires December 15, 2018.
